Why Evidence, Governance, Performance?

The sustainability of health services is a great challenge all over the world.
Why Evidence, Governance, Performance?

The sustainability of health services is a great challenge all over the world.

EBHC can support health professionals, decision makers and policy makers through these 3 key words.
All healthcare systems need...

Producing and using high-quality and trustworthy EVIDENCE

• Primary research
• Systematic reviews
All healthcare systems need...

Delivering an evidence-based, high-value, cost-conscious healthcare applying the systemic approach to clinical GOVERNANCE, which integrates synergic tools:

- Evidence-based Practice
- Clinical practice guidelines and care pathways
- Clinical audit and quality measures
- Risk management
- Health technology assessment
- CME and CPD
- Patient involvement
All healthcare systems need...

Measuring the **PERFORMANCE** of healthcare for accountability and openness, through multidimensional sets of indicators:

- Safety
- Efficacy
- Appropriateness
- Patient involvement
- Equity and accessibility
- Efficiency
- Productivity
EBHC Joint Conference 2013
5th International Conference of Evidence-Based Health Care Teachers & Developers
Models of Practice in Hospital and Primary Care
Taormina (Italy), 26th October - 1st November, 2009

Hosted by GIMIE in cooperation with Oxford Centre for Evidence-based Medicine, Critical Appraisal Skills Programme

Sicily 2009

The countdown to the 5th International EBHC Teachers & Developers Conference has begun.

Join in, learn about and share advances in EBHC while having fun! Building on 4 previous highly successful meetings, the program aims to foster international exchange and networking in the mutual pursuit of better tools, techniques, and curricula for teaching and achieving EBHC.

You will discover an intense intellectual exchange in a relaxed and informal atmosphere.

Meet teachers and developers from around the world in a 3-day program that will include renowned keynote speakers, oral abstract presentations, poster displays, and productive small group sessions to foster exchange and development of new ideas.

You will be staying on the beautiful island of Sicily in the Mediterranean seaside resort of Taormina - famous for its never-ending sun, hospitable people, rich history, colourful culture, and healthy food. The conference venue is the Hotel Caparena, a lush scenario filled by the scent of a subtropical garden of palm and acacia trees, red hibiscus, and orange bougainvillea flowers.

Whether you are expert or novice, professor of students or teacher of colleagues, boardroom policymaker or frontline decisionmaker, if you are involved in teaching or developing “Evidence-Based Health Care”, we look forward to seeing you in “Sicily 2009”.

We promise you will be delighted.

Nine Cartabello, Janet Martin & Paul Glasziou
on behalf The Conference Steering Committee
Dear Colleagues,

we are delighted to invite you to the EBHC International Joint Conference that will be held in Taormina, where the 6th International Conference of EBHC Teachers & Developers hosted by GIMBE Foundation will be held jointly with the 2nd Conference of International Society for Evidence-based Health Care (ISEHC).

The Conference is an excellent opportunity to network with worldwide EBHC teachers and developers in the wonderful frame of Taormina: you will meet a unique panel of EBHC leaders and near 200 delegates from 35 countries of all continents. You will try an intense intellectual exchange in a relaxed and informal atmosphere on the beautiful island of Sicily, renowned for its never-ending sun, friendly people, rich history, colorful culture, and tasty food.

The focus of the Conference “Evidence, Governance, Performance” aims to promote an evidence-based approach to healthcare, education and research, because the sustainability of health services is a global challenge and evidence should inform policy.

All Trials Registered
All Results Reported

Thousands of clinical trials have not reported results

Information on what was done and what was found in these trials could be lost forever to doctors and researchers, leading to bad treatment decisions, missed opportunities for good medicine, and trials needlessly repeated.

Hundreds of patient groups, regulators, professional societies and universities, and tens of thousands of individuals have joined the campaign for all clinical trials to be registered and results reported.

Join the AllTrials campaign

+ Find out more and sign the petition at www.alltrials.net
+ Ask your organisation to join the campaign
+ Write a feature, blog post, editorial, or piece for your organisation’s newsletter
+ Ask your friends, family, and colleagues to sign up
+ Share the campaign on Facebook and tweet about #AllTrials
+ Donate and get involved in other ways via www.alltrials.net

www.alltrials.net

The AllTrials campaign is an initiative of:
Declaration of transparency for each research article

An antidote to inadequate reporting of research

Douglas G Altman director¹, David Moher senior scientist²

Transparency declaration

The lead author* affirms that this manuscript is an honest, accurate, and transparent account of the study being reported; that no important aspects of the study have been omitted; and that any discrepancies from the study as planned (and, if relevant, registered) have been explained.

*The manuscript's guarantor.
